

Signal Hill Paranormal Researchers Investigate Things that Go Bump

LONG BEACH >> The sound of passing cars and oil pumpjacks mingled with wind rustling the trees as a small group of people entered the Long Beach Municipal Cemetery on Tuesday night.

Mike Rusher and his wife, Yvonne, begin pulling equipment from their car in preparation for a paranormal investigation of the grounds.

“We don’t know what we have until we’re done,” said Mike Rusher. “Sometimes it takes weeks to go over the evidence.”

The group, The Paranormal Research Organization, based in Signal Hill, investigates claims of paranormal activity throughout the Southland, mostly in the Long Beach area.
